Design Skills

- Figma
- Adobe Illustrator
- Adobe Photoshop
- Adobe Indesign

Frontend Skills

HTML · CSS · JavaScript · React · Next.js · Tailwind CSS

Soft Skills

Problem Solving · Collaboration · Communication · Adaptability

About me

UI/UX Designer with experience designing web and mobile interfaces through user research, wireframes, and high-fidelity prototypes. I enjoy solving usability problems and creating clean, consistent, and accessible user experiences.

Education

Bachelor in Computer Application (BCA) (2020-2025)

Experience

Junior UI/UX Designer (March 2026-July 2026)

aNepali - Platform for Designers

- Assisted the senior designer in designing and refining UI components, pages, and layouts.
- Created and updated interface designs based on product requirements and design feedback.
- Helped maintain consistent typography, spacing, colors, and visual patterns across pages.

Projects

SafeTrack (Child's Safety Tracking - Mobile App)

- Uncovered user pain points & needs through interviews & surveys.
- Benchmarked competitor best practices & improvement areas.
- Designed high-fidelity prototypes for clarity, ease, & visual appeal.

Case Study (rajankhadka.vercel.app/work/safetrack)

HRMS (Human Resource Management System - Web App)

- Researched user needs & workflows for deep understanding.
- Analyzed industry standards & preferences via competitor study.
- Prototyped solutions through sketches, wireframes & iterations.

Case Study (rajankhadka.vercel.app/work/hrms)

Additional Experience

Graphic Designer at BlueFox Media (Feb 2020-June 2020)

- Designed and developed various marketing materials, graphics, banners, and logos.
- Translated client briefs into visually impactful designs.
